Bennetts Associates has won a competition to design a new chapel and music school in the grounds of the grade I listed Canford School in Dorset.

The chapel will sit at the edge of the school's formal gardens and will have space for 800 seats – large enough to hold school assemblies.

Music classrooms are also included in the project, as well as a small recital hall seating up to 150 people.

Simon Erridge, director at Bennetts, said: "This project is an absolute joy, Canford have provided the rare combination of an enlightened client, fascinating brief and rich, historically important site which create the perfect starting point for any design."
